- ML771\_5\_DESIGNER: 450mmW x 1000mmH (Includes Frame)
- ML771\_6: 600mmW x 1000mmH (Includes Frame)

## **Installation Guidelines**

- May be subject to Australian Building Code Regulations for height and location fixing and may be subject to placement as per architectural drawings. In all cases, this is the responsibility of the installer.
- 1. Using the integrated mounting brackets, locate height on wall and mark fixing holes, ensuring unit is level and even.
- 2. Drill holes, fit wall plugs and loosely secure mounting brackets to wall surface using appropriate fixings.
- 3. Check fixings are level and securely tighten fixings.
- **4.** Place mirror onto mounting brackets, draw down against wall surface to firmly secure in place to finish installation.
- To achieve a theft resistant fixing, run a bead of silicone over the wall mounting brackets and mirror bracket prior to attaching the mirror to the wall brackets.
- For sufficient space to lift mirror onto wall mounting brackets, leave a minimum clearance of 25mm above the top of the mirror frame.
- For sufficient space to remove the mirror from the wall, leave a minimum of 25mm clearance at the bottom of the mirror, and a minimum of 13mm either side of the mirror.

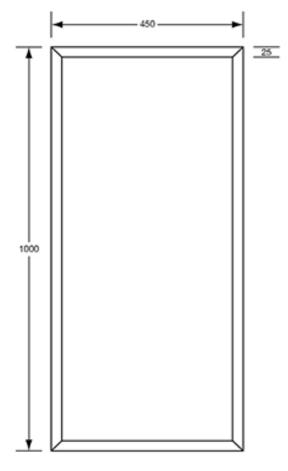

#### Features

- Unit secured with Stainless Steel wall brackets.
- All joins and welds polished.
