

ML217S_HB Combined Hook and Bumper

Material Specifications

- #304 Stainless Steel Body
- Rubber Bumper

Mounting

- Concealed Screw Fix

Dimensions

- 51mmW x 51mmH x 53mm Projection

Finish

- Satin Stainless Steel

Installation Guidelines

- *May be subject to Australian Building Code Regulations for able bodied and/or disabled use. It is recommended that any individual unit is installed whereby it clears any other fixtures by at least 150mm and not carry loads any greater than 8kg.*
1. To remove wall mount bracket from the back of the hook, loosen the set screw.
 2. Locate fixing position on wall or partition and mark using mounting holes, ensuring hook is level.
 3. Fix the wall mount bracket to the wall or partition using the screws and wall plugs provided. Ensure that the bracket is facing the correct way (the bracket should be curving away from the wall and the prongs facing upwards).
 4. Slide the hook onto the wall mount bracket, ensure the prongs are fitted into the allotted spaces on the back of the coat hook.
 5. Check the unit is level and ensure the set screw is fully tightened to finish installation.
